Experiment-1-Installation of RPA packages.

UiPath Installation steps

Here is a detailed steps on how to install UiPath Studio:

STEP 1: SIGN UP OR LOG IN

Open your web browser and navigate to **cloud.uipath.com.**

1) If you already have an account:

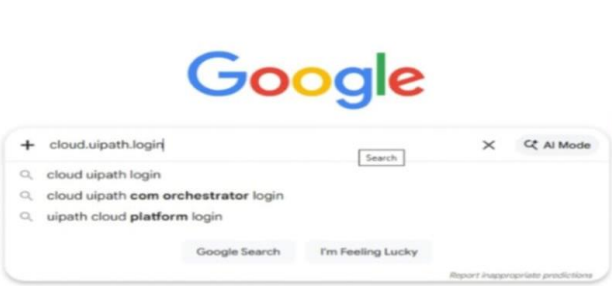
➤ Click on **Log In** and enter your credentials.

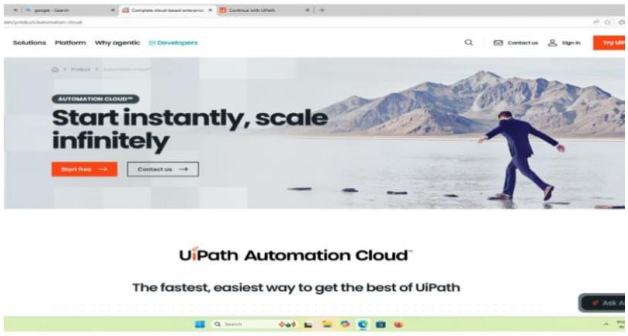
2) If you don't have an account:

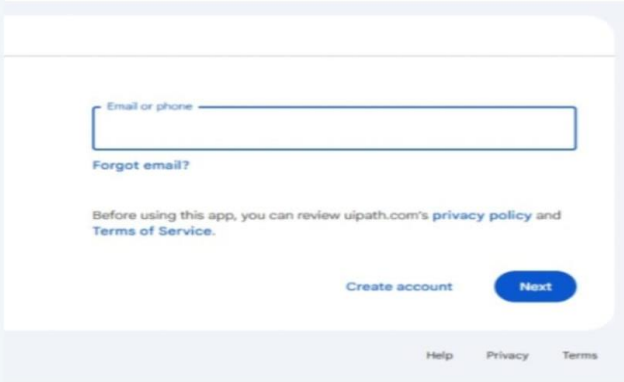
➤ Click on **Sign Up.**

➤ Complete the registration process by filling out the required details.

➤ Verify your email address, if prompted.



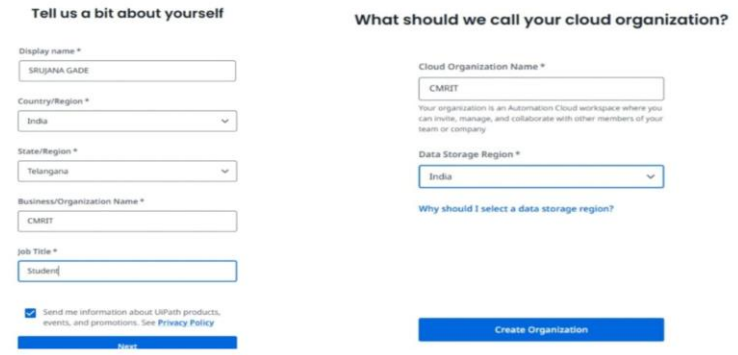


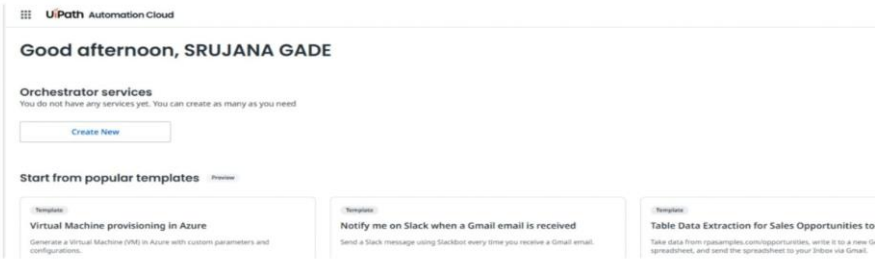


STEP 2:ACCESS THE AUTOMATION CLOUD

2:If this is your first time:

- Fill the basic information
- Create an organization if prompted(give it a name of your choice)





Once logged in the dashboard will automatically open, giving you access to various options like Studio, Orchestrator, and more.

STEP 3: NAVIGATE TO THE STUDIO OPTION

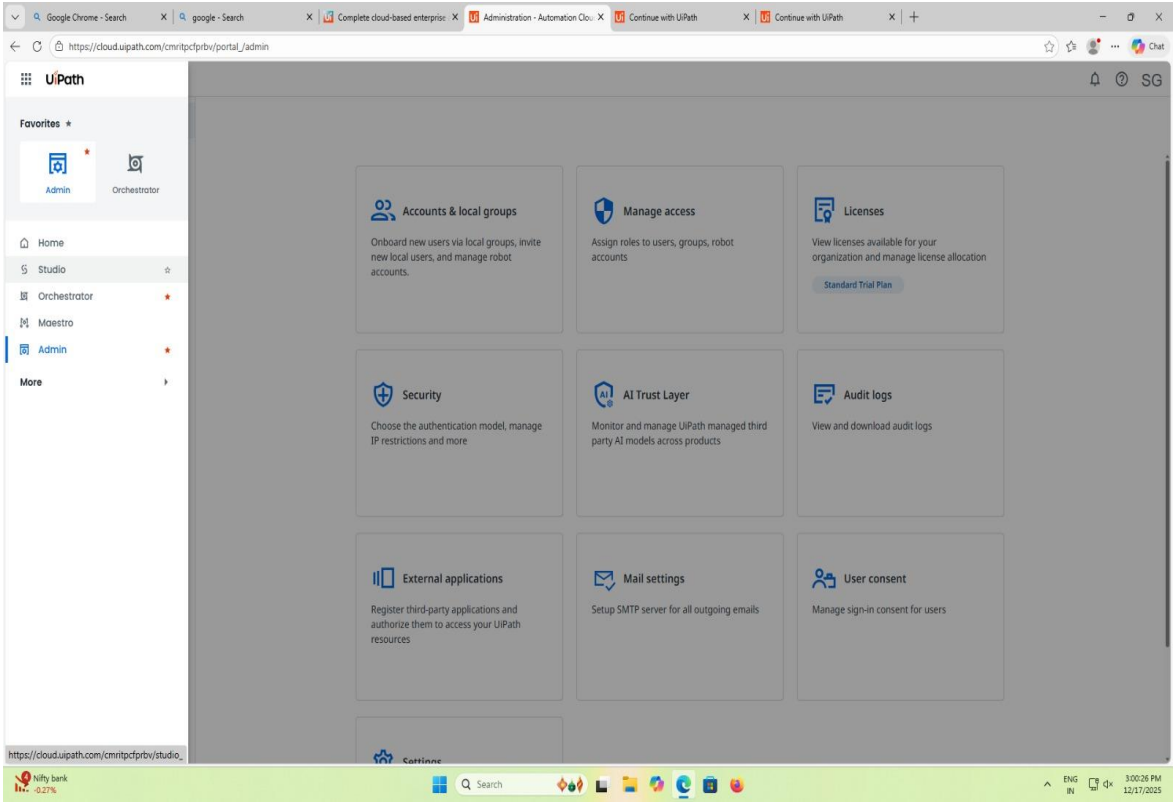
1) On the dashboard, click on the **Studio** option located in the left-side menu (represented by a dots).

2) After clicking on Studio, you'll be taken to the Studio dashboard.

3) Click on **Install Locally**

4) Before the download starts, an option will appear prompting you to select **Studio for Desktop.**

5)Click on the Studio for Desktop option, and then the .Msi file will begin downloading.



STEP 4: INSTALL UIPATH STUDIO

1. After the .msi file finishes downloading, locate the file in your Downloads folder.

2. Double-click on the .msi file to start the installation process.

3. A setup window will open, displaying "Welcome to UiPath Setup".

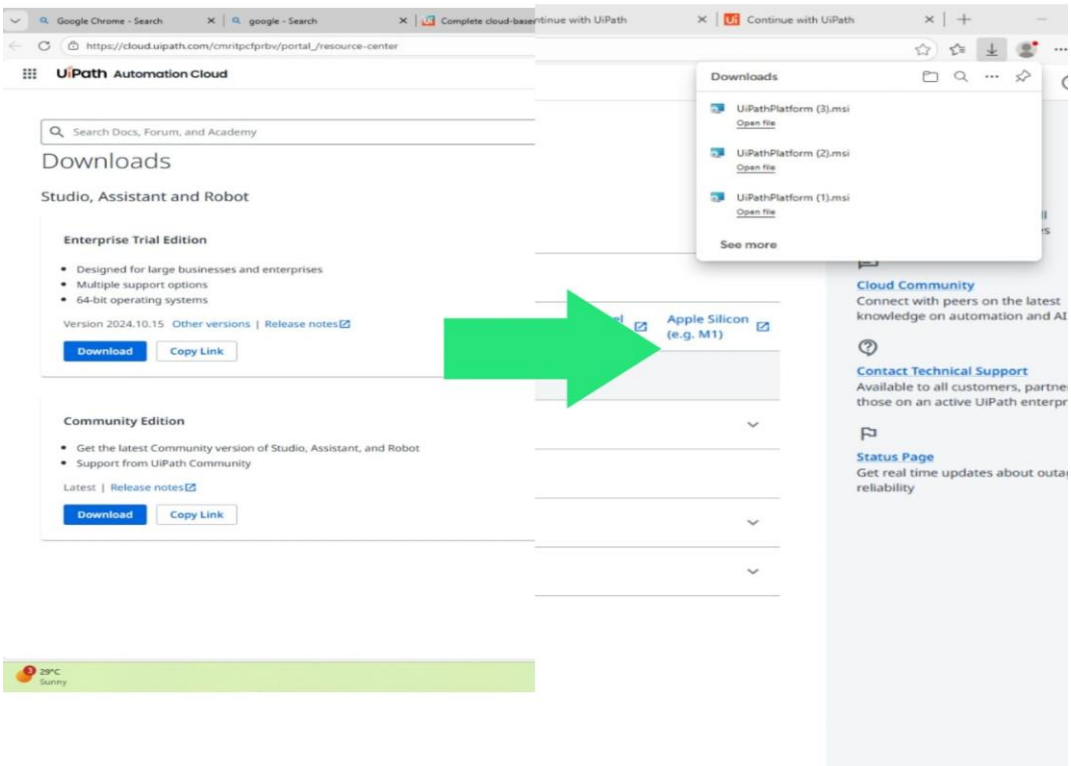
4. Choose the Quick option (recommended for Community users).

5. Accept the Terms and Conditions by checking the box.

6. Click on Install to begin the installation process.

7. Once the installation is completed, the UiPath Setup window will show a confirmation message.

8. In this window, click on Launch UiPath to open UiPath Studio for the first time.



STEP 5: SIGN IN TO UIPATH STUDIO

1. After clicking **Launch UiPath**,Uipath Studio will open
2. You'll be prompted to sign in your Uipath account
3. Enter your login credentials (the same ones used for **cloud.uipath.com**).
4. Once signed in, UiPath Studio will automatically connect to your account and retrieve the license details.
5. After signing in, you will be welcomed directly to the **UiPath Studio** interface, ready for you to start creating automations.
